

## Submitting MCQ Corrections

1. Copy and paste each incorrectly answered **question** together with the **multiple choice options**, your **original answer** and the **correct answer**.
  - If the question comes from a quiz on my website and there are no images in either the question or the multiple choice options, then the question can be copied from the email you received from my quiz.
  - However, if the question comes from AP College Board Classroom or there are images in either the question or the multiple choice options then you will need to paste a screenshot of the question etc.. from the quiz.
    - If the question comes from a quiz on my website, you will need to log back into the quiz using the same browser and device you originally took the quiz with and make sure you click **"Yes"** to the question "Would you like to resume where you left off?" (or "Review Quiz" if you haven't logged out). If you don't (or your browser cookies have been deleted either by you manually or automatically by your browser's privacy settings), you will lose your ability to see your original answer and the correct answer.
2. **Explain your thinking** and **why you choose** your original incorrect answer.
3. **Explain why** your original **incorrect answer** is **incorrect**.
  - *You may also find it useful to explain why all the other incorrect answers are incorrect.*
4. **Explain why** the **correct answer** is **correct**.

*You may write explanations 2 – 4 as either separate **\*bullet points**/sentences or in combination.*

***\*bullet points – advised***

5. Please add the word **"Corrections"** to end of the filename (*before your name*).
