

Using AZ Screen Recorder to Make a Video of your App:

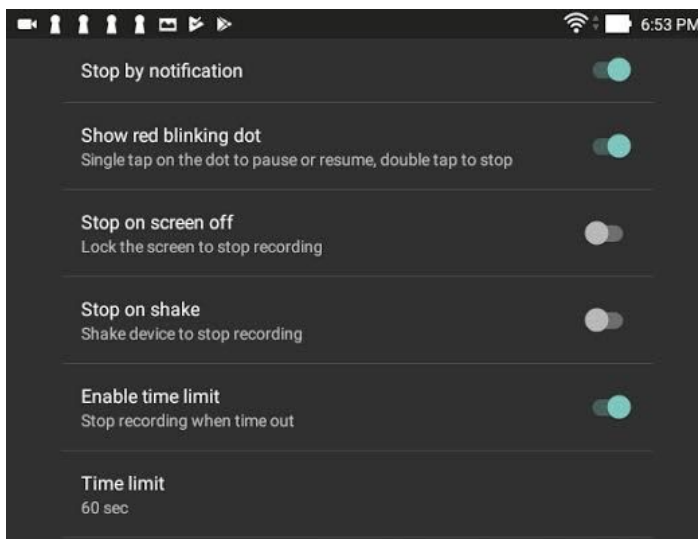

1. Open the Play Store on your tablet and search and download [AZ Screen Recorder](#).
2. Start AZ Screen Recorder.
3. Swipe the top of your screen and click on the setting gear under AZ Screen Recorder:

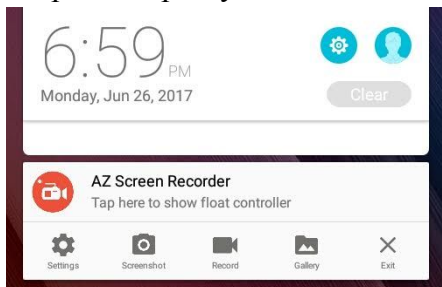

4. In settings, enable audio. To get clear audio, you could use headphones with a mic or hold the tablet very close.

5. Click on Stop Options and enable Show red blinking dot and Enable time limit setting it to 60 seconds. The AP Create video must be under 1 min.

6. Hit back to go to the main screen and start AI2 Companion and get your app going.
7. Swipe the top of your screen and click on the Record under AZ Screen Recorder:

8. It will give you a 3, 2, 1 countdown. Start demonstrating your app speaking close to the tablet or using headphones with a microphone. When you are done, double tap the red dot in the lower right of the screen to stop recording.
9. View your video. Click on share to email it to yourself or add it to google drive or connect with a USB cord to upload to your portfolio.
10. If the file size is larger than 30 MB, try uploading it to youtube and downloading it to get a smaller file.
