

How to send me your App Inventor Programs

1. Add **comments** to each and every code block group:

- In blocks **right click** each code block group (*Ctrl + click on a mac*) and choose **Add Comment**.

- Click the  in the top right corner of the code block group and type an explanation of the code block in your own words (*basically translate the code in the code block into normal "English"*).

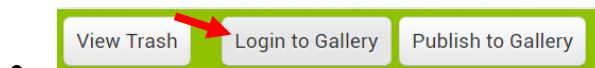

Note:

If you cannot type comments then take screenshots of each code block group and paste into a Word document (*or something similar*), write your comments underneath.

When finished, save and then "Save as Adobe PDF" and send me this pdf file, as well as a link to your app / an aia file (*see below*).

2. (a) If you are using a Google account submit a **link** to your app – *if not go to 2(b)*:

- Make sure you are logged into the "Gallery":
 - Projects – My Projects – Login to Gallery

- If this is your 1st time logging in, you will need to fill out your details:

You do not yet have an account, but we will create one for you now. Please tell us your full name.
