Paper 3: Practical Test

Specimen Paper 2007

2 hours and 30 minutes

Additional Materials: Candidate Source Files

READ THESE INSTRUCTIONS FIRST

Make sure that your **name**, **Centre number** and **candidate number** are **printed on each page** that you are asked to produce.

Carry out every instruction in each task.

Tasks are numbered on the left hand side of the page, so that you can see what to do, step by step. On the right hand side of the page for each task, you will find a box which you can tick $(\sqrt{})$ when you have completed the task; this checklist will help you to track your progress through the assignment.

Before each printout you should proof-read the document to make sure that you have followed all instructions carefully.

At the end of the assignment put all your printouts into the Assessment Record Folder.

You work for a company called Rootrainer Trees. You are going to perform some clerical tasks for this company.

All currency values should be in UK pounds (sterling) with the £ sign visible.
