Paper 3 Practical Test

October/November 2008
2 hours 30 minutes

Additional Materials: Candidate Source Files

READ THESE INSTRUCTIONS FIRST

Make sure that your **Centre number**, **candidate number** and **name** are clearly visible on every printout, before it is sent to the printer. Printouts with handwritten information will not be marked.

Carry out every instruction in each task.

Tasks are numbered on the left hand side of the page, so that you can see what to do, step by step. On the right hand side of the page for each task, you will find a box which you can tick (\checkmark) when you have completed the task; this checklist will help you track your progress through the assignment.

Before each printout you should proof-read the document to make sure that you have followed all instructions carefully.

At the end of the assignment put all your printouts into the Assessment Record Folder.

If you have produced rough copies of printouts, these should be neatly crossed through to indicate that they are **not** the copy to be marked.

You work for a company called Hothouse Design. You are going to perform some clerical tasks for this company.

Your manager has asked you to set up a presentation for the board of directors.

The medium for delivery will be a multimedia projector. Presenter notes need to be produced with the slides.

		\checkmark
1	Set up a new presentation consisting of 4 slides.	
On th	he master slide:	
2	The master slide must have a light grey background on the left hand side (about 1/5 of the width) with one vertical red stripe as a border for the grey background and two horizontal red stripes. Each stripe should be about 6 points wide. It should look like this:	
3	Include an automated slide number in the bottom right of each slide. Make sure that it does not overlap any of the lines added at Step 2.	
4	Place a clipart image of a telephone as a logo in the top left corner.	
	The logo must be resized so that it is within and does not overlap the three red lines added at Step 2.	

5		d candidate number, left aligned in the white de. Use a black, 12 point, sans-serif font. It	✓ □
	Condidate name, condidate number & contra number		
6	sans-serif font at the top of the maste	s a header, left aligned in a black, 44 point er slide. This should be between the red lines ets on the slide. It should look like this:	
	Telephone Analysis		
	Condidate name, condidate number & contra number		
	each slide you are going to add text and bjects should overlap any items on the	d images to the main white area of the slide. No master slide.	text
7	Set the following styles of text through	nout the entire presentation:	
	Heading:	Red, left aligned, 60 point (large font)	
	Subheading:	Red, centre aligned, 36 point (medium font)	
	Bulleted list:	Black, left aligned, 24 point (small font). Use a bullet of your choice.	
On t	he first slide:		
8	Enter the heading:		
	Hothouse Design		
9	Below the heading, enter the subhead	ding:	
	Snapshot analysis of telephone us		_
10	Add the following presenter notes to t		
	telephone use analysis.	tify some of the results of our recent	

On the second slide	On	the	second	slia	e:
---------------------	----	-----	--------	------	----

11	Ente	r the s	ubheading:			\checkmark
	Departments analysed					
	in the same style as the first slide.					
12	Ente	r the fo	ollowing bu	lleted list on t	he left side of the slide:	
		>	Accounts			
		>	Cleaning			
		>	Human Re	esources		
		>	Information	on Systems		
		>	Maintena	псе		
		>	Transport			
13	Ente	r the fo	ollowing bul	lleted list on t	he right side of the slide:	
		>	Productio	n		
		>	Purchasir	ng		
		>	Sales			
		>	Security			
		>	Site Mana	gement		
14		Both bulleted lists should have each bullet set to appear one at a time using the same animation effect. No other elements of the slide should be animated.				
15	5 Add the following presenter notes to this slide:					
	Telephones were used by other departments but some have been removed from the sample.					
On tl	he thir	d slide):			
16				n the followin	g data:	
		Call	type	Minutes		
		Inter	national	1640		
		Peak	Rate	7842		
		Chea	ap Rate	1543		
		Inter	nal	16805		
17	Place visib		chart in the	centre of the	slide. Enlarge the chart so that it is clearly	
	Each segment must show the call type and percentage value. Do not display a legend.					
18	Add	the fol	lowing pres	enter notes to	o this slide:	
	the a				of our calls are internal. These figures are I departments, using a monitoring period of	_

On the	fourth	slide:
--------	--------	--------

40	Enter the tex	.4.	√	
19	Enter the tex			
	-	me calls with:		
20	as a subhea	-		
20	Enter the for	llowing bulleted list on the left side of the slide: Video conference	Ш	
	>	E-mail		
	>	SMS messages		
21		erent clipart image showing a telephone to the right of the bulleted list.		
22	Add the follo	owing presenter notes to this slide:	$\overline{\Box}$	
		ok at cheaper media in order to reduce our operating costs.	ш	
Eort	he whole pre	contation:		
23	•	ne transitional effect between each slide.		
24	Save the pre	esentation. Print the presentation showing all of the presenter notes.		
25	Print the presentation showing 3 slides to a page with space for the audience to make notes.			
26	Print a scree	en shot of slide 2 showing the animation used for the bulleted lists.		
27	Print a scree	en shot of the presentation showing the transitions between the slides.		
	ŭ	asked you to help develop the company website.		
28		ne following files from		
	-	.hothouse-design.co.uk/2008November to your own work area:		
	N8ABOUT.0 N8CLIENT. N8CONTAC N8CONTAC N8HOTDES N8STYLE.C N8WHAT. G	GIF C.GIF C.HTM G.HTM CSS GIF		

		✓
29	Using a suitable software package, edit the file N8STYLE.CSS so that only the following changes are made:	
	 set styles h1 and h2 to red 	
	set style p to dark blue	
	 set styles h1, h2 and h3 so that the primary font is Times New Roman, but if this is not available the browser selects any serif font 	
	 set styles li and p so that the primary font is Arial, but if this is not available the browser selects any sans-serif font 	
	 centre align styles h1 and h2 	
	 set style h1 to bold and italic. 	
	Make sure that the stylesheet that you have edited will work in any browser.	
	Save the stylesheet as N8STYLE1.CSS and attach it to each web page as you create or amend it.	
30	Print a copy of the stylesheet. Make sure that your name, Centre number and candidate number are printed on this page.	
31	Open the file N8HOTDES.HTM	
32	Attach the external stylesheet that you saved at Step 29.	
33	Replace the text <i>Homepage</i> with the heading Hothouse Design Ltd	\Box
	Set the heading to style h1.	
34	At the bottom of the page add the text Last updated by and add your name, Centre number and candidate number.	
	Set this text to style h3.	
35	Replace the text Image 1 here with the image N8ABOUT.GIF	
	Replace the text Image 2 here with the image N8WHAT.GIF	
	Replace the text Image 3 here with the image N8CLIENT.GIF	
	Replace the text Image 4 here with the image N8WORK.GIF	
	Replace the text Image 5 here with the image N8CONTAC.GIF	
	Make sure that the whole of each image is visible.	
36	Centre align all cells in the top row of the table.	
	Right align all cells in the second row of the table.	
37	Set the background colour of only the top row of the table to black.	
38	Set the cell padding for the table to 20 and the cell spacing for the table to 5	
	Set the table width to 100% and the height to 300 pixels.	
39	Set the table border to 5	
40	Create hyperlinks from the text <i>Contact us</i> and from the image <i>N8CONTAC.GIF</i> to point to the file N8CONTA1.HTM which should open in a new window called _contact	
	Note that the web page which you have linked to has not yet been created.	

41	Save the page as N8HOTDE1.HTM	\prod
	Print this page as it is viewed in your browser.	
	Print a copy of the HTML source.	
42	Open the file N8CONTAC.HTM	П
	Attach the external stylesheet that you saved at Step 29.	
43	At the bottom of the page add the text Last updated by and add your name, Centre number and candidate number.	
	Set the text to style h3.	
44	Save the page as N8CONTA1.HTM	
	Print this page as it is viewed in your browser.	
	Print a copy of the HTML source.	
Your	manager has asked you to develop a spreadsheet about telephone calls.	
45	Using a suitable software package, load the file N8PHONE.CSV and save it into your own work area as N8PHONE1	
	Load the file N8CODE.CSV and save it into your own work area.	
46	In the <i>Minutes</i> column (Cell D11) use a function to calculate the whole number (integer) of minutes for each call, by dividing the <i>Duration</i> by 60	
	Replicate this function so that the <i>Minutes</i> for each call are shown.	
47	In the Seconds column (Cell E11) calculate the number of remaining seconds for each call using the formula:	
	Duration – (Minutes multiplied by 60)	
	Replicate this formula so that the Seconds for each call are shown.	
48	In the Length column (Cell F11) use an IF function to show:	
	 If the Minutes are less than 6 then show the word Short 	
	 If the Minutes are greater than 5 and are less than 12 then show the word Medium 	
	 If the Minutes are greater than 11 then show the word Long 	
	Replicate this function so that the Length of each call is shown.	
49	In the <i>Name</i> column use a lookup function to show the staff name. Use the <i>SCode</i> column for the lookup value and the external file N8CODE.CSV for the array. Make sure that you use both absolute and relative referencing within your function.	
	Replicate this function so that the names for each of the 7 members of staff are shown.	
50	In cell C2 use a function that includes both absolute and relative referencing to calculate the sum of the <i>Minutes</i> column if the <i>SCode</i> column contains GBA . Do not include rows 1 to 10.	
	Replicate this function into cells C3 to C8 to sum the total <i>Minutes</i> for each <i>SCode</i> .	
51	Format all cells in rows 1 and 10 only so that they are centre aligned.	

52	Format all cells in rows 1 and 10 only so that they are bold.	
53	Set the page orientation to landscape.	
54	Save the data model and print a copy of the sheet showing the formulae used.	
	Make sure that the contents of all cells are visible and that the printout is one page wide. It may be three or four pages tall.	
	Make sure that your name, Centre number and candidate number are printed in the header of the page.	
55	Set the page orientation to portrait.	
56	Save the data model and print a copy of the sheet showing the values.	
	Make sure that the contents of all cells are visible and that the printout is one page wide. It may be two pages tall.	
	Make sure that your name, Centre number and candidate number are printed in the header of the page.	
57	Interrogate the data to find all the calls where the Length is Long	
	Print this data.	
	Make sure that your name, Centre number and candidate number are printed in the header of the page.	
58	Interrogate the data to find all the calls where the <i>Length</i> is Long and where the <i>SCode</i> is VCR or RSP	
	Print this data.	
	Make sure that your name, Centre number and candidate number are printed in the header of the page.	

After the examination time

On your html printout highlight those portions of the code which show that:

- The external stylesheet is attached to both web pages
- The table border is set to 5
- The table cell padding is set to 20
- The table cell spacing is set to 5
- The table width is set to 100%
- The table height is set to 300 pixels
- Row 1 of the table is centre aligned
- Row 1 of the table has a black background
- Row 2 of the table is right aligned
- The hyperlinks from both text and image open N8CONTA1.HTM in a new window called _contact
